about Jump Trading

Jump Trading is a leading global trading firm that combines sophisticated quantitative research, cutting-edge technology, and an entrepreneurial culture.

Jump has 20 years of experience investing in superior infrastructure, including custom hardware, software, wireless networks, and a world-class supercomputer. We leverage our proprietary technology to analyze massive data sets and identify trends in global markets across asset classes.

Jump is privately owned and funded, fostering a culture of intellectual curiosity, learning and experimentation.

With offices around the globe, Jump has more than 700 employees, many with backgrounds in trading, Silicon Valley tech companies and startups, top PhD programs, and research labs.
